Internship

***Summer internship in* Indian Railway, ranchi** **JUL 17 2022 – AUG 2025**

- *Acquired hands-on exposure to building construction activities, including column and beam casting, slab casting, plastering, and tiling works.*
- Assisted in finishing works such as putty application, wall painting, and waterproofing of roofs.
- *Gained practical knowledge of curing techniques to ensure proper strength development in concrete structures.*
- *Participated in laboratory work, enhancing understanding of material testing and quality control.*
- *Observed and learned the integration of structural and finishing works in large-scale railway building projects.*

Summer internship in Prashad-TTIPL-SSR-JV, Latehar **Jul 01 2025 – Jul 15 2025**

- Assisted in the preparation and review of project documentation, including technical drawings, specifications, and progress reports.
- Assisted in managing on-site workers, ensuring smooth workflow and adherence to safety protocols.
- Gained practical exposure to site drawings and construction plans, enhancing understanding of execution on field.
- Conducted surveying tasks with the help of Earth Map tools for alignment and site planning.
- Contributed to the finishing works of a railway station project, including painting of sleepers and railway track elements.

Projects

Earthen Dam Model | Soil Mechanics **NOV 2024 - DEC 2024**

- *Designed and constructed a scaled model of an earthen dam, demonstrating principles of soil mechanics and geotechnical engineering.*
- *Applied knowledge of soil compaction, slope stability, and seepage control in the model.*
- *Collaborated with team members to execute the project, ensuring accurate representation of real-world dam construction techniques.*
- *Gained practical insights into embankment design, drainage provisions, and failure prevention methods in earth dams.*
- Enhanced teamwork, project planning, and presentation skills through model preparation and demonstration.

Project – 2BHK House Model | Hands-on Experiential **Feb 2024 – Mar 2024**

- Gained hands-on experience by designing and constructing a scaled 2BHK house model using concrete. Gained hands-on experience by designing and constructing a scaled 2BHK house model using concrete.
- Applied practical knowledge of formwork, reinforcement detailing, slab casting, curing, and finishing works. Used Worked in a team to plan, execute, and complete the project, improving coordination and project management skills.

Technical Skills

Software: Auto cad, ravit, staadpro

Languages: C++, C, Scripting in Python

Non-Technical Skills

Volunteer Experience |ENGO

Actively participated in social service initiatives to support community development.

Extra-Curricular Activities

Two times AIU national gold medalist in music. **2024-2025**

Education

Lovely Professional University **2023 – 2027**
Bachelor of Technology - Civil Engineering — CGPA: 7.05 Phagwara, Punjab

R.K +2 High School Latehar **2021 – 2023**
12th — Percentage: 78.9% Latehar, Jharkhand

B.S DAV public school **2016 – 2017**
10th — percentage: 80% Garwa , Jharkhand
